

Italy - Porto Cervo - Exceptional residence project

Sits majestically on the northeast coast of Sardinia and offers residents the perfect combination of pristine nature and luxe living

It's the first development of its kind to come to the Costa Smeralda in over 50 years. Nestled in the granite hills above the marina of Porto Cervo, the 28 residences embrace the traditional character of the area. The resort includes a selection of exceptional residences, ranging from one to four bedrooms including large garden villas and four penthouses.

Residences offer spacious private terraces and access to beautiful landscaped gardens, a protected nature park, a swimming pool, underground parking and bespoke concierge.
